

## How to verify your identity with your passport

First, check your passport is still in date, then send us two photos:

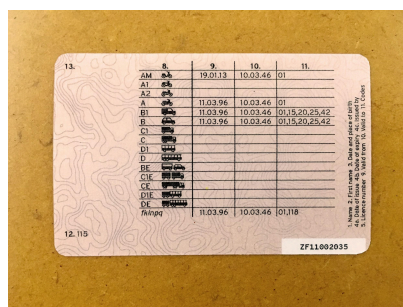

1. A photo of your passport open on the photo page – make sure it's signed.
2. A photo of you holding your passport next to your face.

You can send us several photos if that helps, and we'll pick the best ones.

## How to verify your identity with your driving licence

First, check your licence is still in date, then send us three photos:

1. A photo of the front of your driving licence.
2. A photo of the back of your driving licence.
3. A photo of you holding your driving licence next to your face.

You can send us several photos if that helps, and we'll pick the best ones.

## Common mistakes

- ✗ The photo must show the edges of the ID.

- ✗ Include both pages of your passport, and make sure it's signed.

- ✗ The text must be in focus – hold the ID level with your face.

- ✗ We can't accept scans.

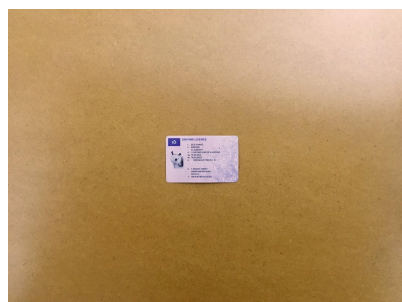

- ✗ Don't cover the text with your fingers.

- ✗ The ID can't be obscured by a reflection.

- ✗ Only put one ID in each photo.

- ✗ The text can't be so small it's illegible.

- ✗ Don't take the photo in a mirror.
